- Wide range of sizes to suit any vessel
- #1 fender in sales in its class
- The fender of choice by naval and Coast Guard vessels all over the world
- Even wall thickness
- Solid multiple ribbed reinforced ropeholds
- Twin-eye design for vertical or horizontal use
- Designed for use in permanent unprotected moorings, pilings, locks and concrete walls

INSIDE THE F SERIES

When it comes to fenders, Polyform's F Series has no equal. No other manufacturer of inflatable fenders can say theirs have the same blend of one piece construction, consistent wall thickness and the overall durability that our F Series has. All you have to do is to look anywhere in the world at vessels over 60 feet. You will most likely see a Polyform F Series fender on it. This includes some of the world's most prestigious yachts as well as naval and Coast Guard ships around the world. Many have tried to copy our design and range of sizes, but the consistent Polyform quality and availability keeps us as the undisputed leader in this style of fender!

F SERIES SIZES
